PRESS: AMERICAN EDUCATIONAL COMPANY CHICAGO

INTRODUCTORY

The aim of this work is to give a complete and accurate muck to the public and private educational system of the United States. The information has been thoroughly revised to date, and before final printing of the book, proofs submitted to the various school officials for final revision and correction.

In the main Geographical Classification, in addition to the public school officials, will be found a complete list of all schools and colleges, together with information as to the kind of school, class of students admitted, religious denomination, year established, and the name of the governing head of the institution. A second complete list of all institutions is given in the Classified Directory in which the schools are arranged alphabetically by states, classified according to the kind of school, giving a ready reference or complete list of any particular class of institution, together with the names of the executive officers. A complete Alphabetical Index of all schools and colleges will be found at the back of the book from which any institution may be instantly located.

The Public School System is fully covered by lists of the state educational officials and county superintendents of schools, the city boards of education, city superintendents, public high schools and principals, and the directors and supervisors of special subjects. A list of the more prominent Libraries with the name of the librarian and number of bound volumes, is included in the present volume An Educational Business Directory is also given, which will be found

of much value to the school executive as a convenient and ready reference list of reliable manufacturers and dealers supplying every known need of the school and college.

It is believed the work will be found of value to every one in any way associated with educational institutions, or engaged in educational work. Acknowledgment is made to the various State and City Superintendents of public instruction, private school officials, librarians and others for their kind co-operation and assistance in furnishing data and information necessary for the completion of the volume. While no labor has been spared in the effort to have the work as accurate as possible at the time of going to press, continual changes necessarily preclude absolute accuracy.

School officials, librarians and others will confer a favor by notifying us of changes, and by calling our attention to any inaccuracies or omissions in any department of the work.

THE PUBLISHERS.

SCHOOL TEXT-BOOK COMMISSION

Public school text-books are required by state law to be furnished free by the several towns. There is no State Text-Book Commission and no state uniformity of text-books.

STATE TEACHERS' ASSOCIATION

E. E. RODERICK, President,	Superintendent of Schools	Belfast
ADELBERT W. GORDON, Secre	etary	Augusta

COUNTY SUPERINTENDENTS OF SCHOOLS

Maine has no county superintendents of schools, but has what is known as the "Union Systems" of school supervision. The towns and cities of the state, of which there are 520, are combined into groups by the State Commissioner of Education, and the members of the school committee of the towns in these groups elect one person to serve as superintendent of schools of the group or union, devoting his whole time to that work. The only exception to this arrangement is in the case of towns or cities having more than fifty schools. These are allowed to elect a superintendent of schools to serve that town or city alone.

MASSACHUSSETTS

COUNTY SUPERINTENDENTS OF SCHOOLS

Massachusetts has no county superintendents of schools, but has instead what is called the town system of school supervision, each city or town, or, where the towns are small, a group of towns, having its individual superintendent of schools.

PUBLIC, PRIVATE AND ENDOWED SCHOOLS AND COLLEGES

VERMONT

SUPERINTENDENTS OF SCHOOLS

Ve rmont has the town system of schools. The schools of the state are chiefly under the direction of superintendents who give their full time to this work. Any town or city may elect a town superintendent or may combine with other towns in a supervisory district. The superintendents of these districts are elected by the local directors subject to approval by the State Board of Education.

BALANCES

The common balance consists essentially of a beam resting at its middle point upon a fulcrum and furnished at its extremities with two scale pans; the goods to be weighed are placed in one of these, and known weights placed in the other until the beam assumes a horizontal position. In most of the delicate balances used for chemical analysis, the distance of the center of gravity from the fulcrum can be regulated within small limits. Such balances are protected from air currents, dust, etc., by being enclosed in glass cases with sliding fronts. See, Laboratory Equipment.

BAND AND ORCHESTRA INSTRU-MENTS

Through a school band and orchestra the message of music and a better appreciation of its value are carried to a larger number of people in the community. In every school will be found a nucleus of interested prospective band or orchestra players.

BLACKBOARDS

The schoolroom blackboard should be easy to write on, easily read from and easy to clean. The writing surface should be uniform in color, smooth and non-porous. See, Blackboards, Composition; also. Blackboards, Slate.

BLACKBOARDS—Composition

These boards are made up of paper, wood, sypsum, or some other composition as the base, and are then coated with a material that will produce a suitable writing surface.

BLACKBOARDS-Slate

These boards are made from slabs of natural slate which have been shaved and polished so as to produce a surface that can easily be written upon.

Flanagan Co., A., 920 N. Franklin St., Chicago. Johnson, E. J. 38 Park Row, New York Keenan Structural Slate Co. Bangor, Pa. Monson Maine Slate Co. 112 Water St., Boston, Mass. Standard Blackboard Co., 101 S. Second St., St. Louis, Mo. 27 See announcement on page 1021

BLACKBOARD ERASER CLEANERS, ELECTRIC

These machines are driven by a motor and operate on any electric current by plugging in on a convenient lamp socket. A strong suction fan carries the dust from the eraser to the dust bag, which is so attached that it is impossible for dust to escape into the room.

Lynn Company, James, 14 E. Jackson Blvd., Chlengo, III.

BLACKBOARD CLEANERS, FELT

A blackboard eraser should clean the board thoroughly without noise or dust. Numerous types are offered by the different manufacturers.

Palmer Company,

Milwaukee, Wis.

BLUEPRINT FRAMES

These frames are similar in construction to a photograph printing frame except that they are much larger. The majority of them rely on the sun's rays for printing. There are some, however, known as vacuum frames, that are adaptable to either sun rays or electricity.

Dietzgen Co., Eugene, Chicago, New York San Francisco, New Orleans. See announcement on page 961

BLUEPRINT PAPER

This paper is a specially prepared sensitized paper. When tracings are placed in contact with it and exposed to light rays. the drawings will be reproduced on the paper in white lines with a blue background after the paper has been developed by immersing in clean water.

Chicago Blue Print Company, 68 W. Washington St., Chicago, Ill. Mes announcement on page 957 Dietzgen Co., Eugene, Chicago, New York San Francisco, New Orleans. See announcement on page 961

BLUEPRINTING MACHINERY

There are two types of blueprinting machines, the cylindrical which are made in both continuous and non-continuous, and the horizontal which are all continuous. The cylindrical machine consists of two segments of curved plate glass. The tracing and paper is kept in contact with these plates by means of roller curtains. When printing an electric are lamp is lowered into the cylinder. The horizontal machine is motor driven, the tracings and paper being fed in by means of belts onto machine is motor driven, the tracings and paper being fed in by means of belts onto the printing surface which is lighted by arc lamps. Schools offering courses in drafting, shop work, and where it is neccessary to have a large number of blueprints, have a need for such machines.

Dietsgen Co., Eugene, Chicago, New York San Francisco, New Orleans. See announcement on page 961 Paragon-Revolute Corp., 77 South Ave., Rochester, N. Y. LA See announcement on page 927

BOOK CASES-SCHOOL

Book cases for school use may be the cabinet style with panel or glass doors, or the standard sectional unit type. Either

style can be had in steel or wood. A school book-case should be as nearly dust-proof as possible, and should have adjustable shelves to accommodate books of different sizes.

Union School Furnishing Co. 4633 Fulton St., Chicago. See announcement on page 1023

BOOK COVERS

Used to protect school books from daily handling and rough usage, book covers will greatly increase the lives of the books. They are manufactured in various grades of paper, cloth and leatherette.

BOOKPLATES

A label, impression, or inscription, show-A label, impression, or inscription, snowing the name or monogram of the owner of the particular book and frequently adorned with artistic embellishments, besides showing the owner's arms or heraldic device. They are generally pasted just inside the front board or cover of the book.

Handieraft Co., Minneapolis, Minn.

BOOKS

School boards and teachers are convinced of the advisability of providing for pupils' supplementary reading, and the number of adequate school libraries is constantly increasing. New books must be added to these libraries regularly if they are to be popular with the children. Boys and girls should be encouraged to think of books as part of the joy of life, and reading in no sense a duty.

BUILDING DIRECTORIES. CHANGE-ABLE

A large changeable bulletin board used in school buildings of the larger type where it is necessary or desirable to have some method of directing visitors to executive offices, classrooms, libraries, museums, or individuals.

Davenport-Taylor Manufacturing Co., 412 Orleans St., Chicago, Ill. Tablet and Ticket Co., The, Chicago, New York, San Francisco.

BULLETIN BOARDS

Notices displayed on a bulletin board will often receive attention where important verbal announcements sometimes fall on inattentive ears. See, Bulletin Boards, Cork.

BULLETIN BOARDS, CHANGEABLE

These boards are being made in several different types. In one type the letters, which are die cut, can be had in various sizes and colors and these letters are held on to the board by tabs which fit into slots. Another type uses letters which are printed on individual cards and which fit into slides in the board. Their usefulness lies in the ease with which bulletins may be changed or altered at will. will.

Davenport-Taylor Manufacturing Co., 412 Orleans St., Chicago, Ill.

ARTISTIC

CARD INDEX SYSTEMS

Card indexes are used in schools for records of all kinds for the student, library, laboratory, and office. Just what system will be found preferable for each use will depend to a considerable extent on the information required and the size of the card used, as well as the amount of usage the file will receive. Where constant and frequent reference is required, a visible system may often be used. See, also, Filing Equipment.

CHRISTMAS CARDS, FRATERNITY

The interchange of fraternity Christmas greeting cards has become a popular present day custom among school and college fraternities and sororities. A large variety of appropriate crested cards are manufactured for this special purpose, and may be had for any fraternity or sorority.

Skillkrafters, Inc., 1719 Ranstead St., Philadelphia, Pa. APP See announcement on page 967

CINEMATOGRAPHS

Apparatus for projecting on a screen in rapid succession a series of pictures representing successive stages of appearances involving motion, thus producing a sensation of a continuously moving picture. Machines similar in principal are known by the names of biograph, bioscope, kinetoscope, etc., and the effects they produce are called moving pictures. See Moving Picture Projecting Machines.

CIRCUMFERENTORS

A mathematical instrument used chiefly in connection with the surveying of mines. It consists of a compass, with diametrical sights, the dial of which is divided into degrees. This is attached to a stand and can be adjusted so that the angle which the line of sight makes with the magnetic north can be observed on the dial. See. Surveying Instruments.

GLASS PINS AND RINGS

This type of jewelry is usually made up in more or less standard designs which can be adapted to any school. Special designs can be had if desired. They are generally purchased by a student committee under the supervision of the principle. cipal or other school administrator.

CRUCIBLES

Open vessels used for melting and calcining substances which need the application of extreme heat, such as metals, ores, glass, etc. They must be made of some infusible, unbreakable substance. Those made of fire-clay and coarse sand is the commonest kind. For analytical purposes platinum and porcelain are much used. Lime or carbon crucibles will withstand the highest temperatures. See, Laboratory Equipment.

CURTAINS, STAGE

School auditoriums equipped for any form of theatricals or entertainment require a stage curtain. These curtains are made to order and can be had either in the type used by theatres, or in the form of a drape made from velour or other heavy fabric.

DENTAL EQUIPMENT

The care of the teeth of the student is a very important means of caring for the health of the child. Schools are requiring periodic examinations of the teeth of all pupils, and in many instances caring for the needed work through a staff dentist.

Betz Co., Frank S., Hammond, Ind.

DEODORIZERS

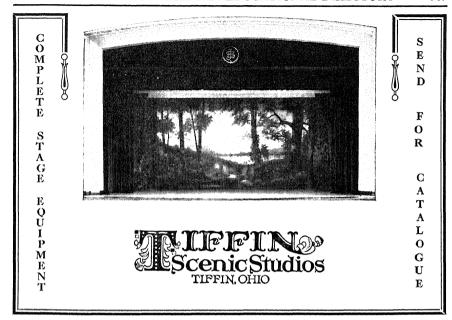

This equipment is a means of destroying bad odors in a room or building. Some of the types actually spray a deodorizing chemical into the air, while others allow the material to evaporate and mix with the air in the room. They are especially valuable in large school assembly rooms where there is danger of the air becoming stale.

DESKS

The school desk or chair plays an important part in the shaping of the physical body during the formative stage of school life. A comfortable position for both teacher and pupil must be the background for all sustained mental effort. See, Desks, Pupilis; also, Desks, Movable Chair; also, Desks, Teachers.

Searles Electric Welding Works, 1850 W. Fulton St., Chicago. III.

DESKS, PUPILS

School seats and desks for the pupil should be constructed in such manner as will be most conductive to the comfort and health of the occupant, permitting of an easy and natural writing or study position for the child. In addition they should be both durable and sanitary. Various types and styles are offered by the different manufacturers. See, also, Desks, Movable Chair.

Self-Releasing Fire Exit Latches

VON DUPRIN Self-Releasing Fire Exit Latches are so simple in design, so sturdily built, so dependable in operation that they have become standard equipment on the school house doors of most of the larger American cities and many of the smaller ones.

Their high quality and reliability gives them such freedom from trouble and from servicing expense that their cost per year is surprisingly low.

Our Engineering Department will gladly send literature or special information to school men and architects.

T. A TURNEY &

Lathes for school shops are of two types; those for metal working and those used in the woodworking courses. The metal-working lathes used by schools include the speed lathe, the engine lathe, and the turret lathe. The engine lathe is probably the most used since all work such as turning and screw cutting is done on it. The turret lathe which is used for multiple operation work will be found only in schools teaching advanced machine shop courses. The speed lathe is used almost exclusively for small operations such as polishing, etc.

MANIKINS

A manikin is a complete reproduction or the body, which hangs upon the wall, occupying the space of a picture. Open it, fold after fold as you would turn the pages of a book, and you see in natural colors, life size, exact position, every vein, nerve, muscle, organ and bone in the body.

great variety of forms, but in nearly all types the measurement is made by turning a very fine screw, which gives motion to a scale, lens, or ruled glass plate. See, Surveying Instruments.

MICROSCOPES

Microscopes for school work have considerable variance in quality and precision depending entirely upon the work for which they are to be used. They can be secured having a magnifying power from thirty or less diameters up to a thousand diameters. In the simple microscope a single convex lens, between the eye and the object, forms an enlarged image, In the compound microscope an object glass or objective, near the object forms a real image, which is viewed by the observer through a magnifying eyepiece. Either objective or eyepiece, or both, may be composed of more than one lens.

FREE to YOU!

Advice and Aid from Visual Education Authorities on Motion Pictures in the Schools

The Motion Picture in the school is a comparatively new thing. Before you decide to invest in motion picture equipment a dozen questions arise in your mind:

What definite good will motion pictures do your school? What has been the experience of other schools with motion pictures? What is the best projector for school use? How much does it cost? Where can you get films for your particular purpose?

Write today for free pamphlets on movies in the school, answering these and many other important questions. Gives successful educational and extracurricular programs and facts about the new Acme Motion Picture Projector.

ANTARGUMENT and A GIFT

DISCUSS THIS WITH YOUR SUPERVISOR Music That's Gambleized Doesn't Wear Out!

Have you an Excellent Music Library-

or a-Paper Heap?

Does your music last only a Few Months-

or for-Years and Years?

Supervisors using Gambleized Music are delighted with it. Their libraries need NO REPLACEMENTS and FEWER ADDITIONS. Students will not lose parts, tear or wear out any publication so "hinged" or bound.—Is this not CONVENIENCE and ECONOMY?

WE OFFER A SUPERIOR SERVICE—SUPPLY ALL PUBLICATIONS!

If your Supervisor does not have a "MUSIC SUPERVISOR'S REFERENCE RECORD", we will send one "with our compilments" upon receipt of name, address, and title or position. This book is greatly appreciated and is Gambleized!

"Thank you very much for the Gambleized 'Reference Record'.

Such a practical, up-to-the-minute handbook, is a demonstration more convincing than miles of conventional advertising."

SELKHIK BURGESS, Dir. Mus.,
Grove City Public Schools.

Grove City, Pa.

"A line to congratulate you on the excel-lent 'Record' recently issued. Incidentally, it is a clever and constant reminder of how con-venient and permanent Gamble material is."

FRANK A. BEACH, Dean Kans, State Teachers College of Emporia, Emporia, Kansas,

PARTITIONS, ROLLING AND SLIDING

Partitions facilitate the division of a large room into two or more compartments, thereby eliminating the distraction caused by several groups meeting in different corners of the same room. The rolling partition consists of small segments of wood or steel; when closed, it rolls up and is concealed in the wall or ceiling, as is also the sliding partition.

PIANOS

Pianos are a necessary part of all school equipment, every school building being provided with one or more instruments. Schools having an auditorium should provide a grand plano. In schools where piano lessons are given, each practice room must have an instrument. In the grade schools a special small sized plano which can be moved from room to room is often used. This plano is also low enough that the teacher can see over the top of it and direct the singing of the class while playing. Pianos are a necessary part of all school

SCHOOL BOND ISSUES

Investors are constantly seeking school bonds. For that reason School Districts can usually obtain better terms and higher prices for their securities than any other class of corporate body. Firms specializing in the issuing and marketing of school bond issues place their information and experience at the disposal of any School Board.

SCHOOL REPORTS

At regular intervals, the teacher must furnish reports on the progress of the pupil. One modern method is by the use of the graph Line, which shows distinctly the rise or fall of the students' work and his deviation above or below the average.

SCHOOLHOUSES, PORTABLE

Portable school houses, made of either wood or sheet metal, are factory built in large quantities and carried in stock ready for immediate shipment. They are delivered in sections, plainly marked, that they may be easily erected in a few days. They can be taken down at will and moved to another location. They are used for emergency needs to solve the pressure for more space, or where economy is necessary.

SEATING EQUIPMENT

The school hours have a vital effect on the health of both pupil and teacher. Incorrect seating makes the children slump down in their chairs, causing bent backs, crowded abdomens, and stooping shoulders, while correct seating encourages correct posture and builds enduring habits of health. See also, Desks, Pupils; also, Desks, Movable Chair.

SEXTANTS

An instrument for measuring the angular distance between two objects. One object is reflected on the other by means of a mirror; at the moment of coincidence the instrument may be clamped and the angle between the objects read off on the scale. See, Surveying Instruments.

SHADE ROLLERS AND PARTS, METAL

The hard usage of window shades in the school room often breaks parts of the fixtures, rollers, or slats. Instead of purchasing new shades, a material saving may often be made by ordering only the needed parts.

DO YOU KNOW?

Pitman Shorthand was invented by Isaac Pitman in 1837. The excellence of the Pitman System is indicated by the fact that today— 90 years after—9 out of every 10 reporters are Pitman writers.

More than 1,400 reporters were members of the National Shorthand Reporters' Association in 1926.

Nearly 1,300 of this number write Pitman.

Lass than 150 use one of 11 different systems.

The Highest and Best Paid Positions Are Awarded to Pitman Writers.

STATUARY

Statuary furnishes educational and llutrative material for several departments, from ancient history to art, and it serva a practical use when given to the schoe as a memorial from classes and organizations. Very good reproductions of well known "originals" are furnished in marble bronze, or composition. When determining the material from which the statue shall be made, purchasers should consider the usage to which it will be put, whether it will be a feature of the exterior or intrior of the school building, and whether it will be used as subject matter for ar or other classes.

The School Auditorium COMES INTO ITS OWN

THE modern school auditorium is now making a more definite contribution to the curriculum than ever before. . . . It is at once a center of wholesome entertainment and dramatic training; a source of genuine student interest and, through the motion picture, a demonstration and lecture hall. . . . The projection machine, as an educational medium, has rapidly taken its place alongside the text book. Throughout the country the thirty-one branches of the National Theatre Supply Company are constantly ready to furnish school auditoriums with—

TAPES, MEASURING

Used for measuring distances, usually from 20 to 50 feet long and marked with subdivisions of length in feet and inches. They are commonly of linen or fiexible metal, and attached to an axle in a round flat case of pocket size in which it is wound up into a coil when not in use.

Dietzgen Co., Eugene, Chicago, New York, San Francisco, New Orleans. EF See announcement on page 961

TEACHERS' AGENCIES

The reliable teachers' agency offers a genuine service to teachers, and to school boards and school officials, by recommending suitable teachers for suitable positions. The agoncy collects definite and reliable information with reference to the character, training, personality, experience and professional spirit of each candidate. This information is presented in convenient form for the inspection of school officials.

Four New Booklets

- 1. The Gregg Professional Library.
- 2. Elementary and Intermediate Texts in Gregg Shorthand.
- 3. Advanced and Reporting Texts in Gregg Shorthand.
- 4. The New Rational Typewriting

These booklets, all handsomely illustrated, describe in a most interesting way the plan, contents, and place in the course of more than 100 books on shorthand and typewriting.

After reading them you will be able to determine just the book you want to sec.

These booklets also contain many helpful teaching suggestions.

Fully Guaranteed

IDEAL FOR SCHOOLS, CAR-PENTERS. PATTERN MAKERS. ETC.

Mac, THE POPULAR MECHANIC, is sturdy, dependably built, accurate, a practical outfit fully guaranteed. It provides the student with accurate machinery with which to do Jig sawing, spindlework, rip or cross out sawing, sanding, grinding, polishing, drilling, and many more operations, in a workmanike manner. It is sultable for making tables, benches, chairs, desks, novelty furniture, its price for doing repair work, building bird houses, etc. Its price enables the school to have several outfits for students use at the same cost as one of the larger factory outfits. "Mac," does the same class of work as larger outfits.

Special Price To Schools

At regular prices, Mac, THE POPULAR MECHANIC. gives maximum value. Our prices are surprisingly low. We want every Manual Training School to have one or more of these outfits and we therefore will give you a substantial discount from regular prices. Write for our special school proposition today.

WATER COLORS

Permanence of hue, evenness of texture, and smoothness in application on paper are some of the qualities essential for good water colors. They are furnished for school use in either the cake form, or the tube containers. See, also, Art Materials; also. Drawing Materials.

Abbott Educational Co. 208 S .Wabash Av., Chicago. American Crayon Co. Sandusky, Ohio. The connouncement on page 950 Thayer & Chandler, 913 Van Buren St., Chicago See announcement on page 1041 Wallbrunn, Kling & Co. 327 S. Clark St., Chicago, Ill.

WATER FILTERS

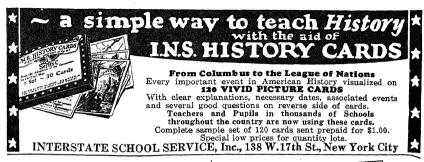

In many sections of the country it is desirable to filter the drinking water to rid of impurities. Small portable filters are manufactured, and where larger quantities of water are needed special installations are made by competent engineers. In addition to drinking water, filtration is frequently used in swimming pools.

WINDOW GHARDS

Stewart Iron Works Co., 254 Stewart Block, Cincinnati, O.

WINDOW SHADES

In the lighting of the schoolroom, much care should be exercised in the control of daylight through the use of proper shades. Shade cloth should be used which will tone the light to give eye-comfort, and bar out injurious glare. A good shade cloth will not crack, wrinkle, or show pin holes with usage.

Always Preferred

"Display" stage lighting equipment is always preferred because of its dependability, effectiveness, simplicity, guaranteed construction and minimum price. Our new catalog illustrates with detailed information spotlights, borders, foots, floodlights, baby spots, dimmers, cable, etc.—all of which are particularly adaptable to the school stage.

MAY

Your Desks are they fit for another year?

Look at them. Are they gouged? Are they scratched? Is the varnish chipped in places? Have busy, nervous pencils left them unfit for next year's classes to work upon?

You no longer need to pay for expensive hand work in making them as good as new. No troublesome, tedious varnish removal. No costly sandpapering by hand.

Whisk away that varnish—brush away those scratches, knife cuts, gouges—as easily as brushing a blackboard—with the powerful, fast-cutting, Clarke Vacuum Portable Sander.

Hundreds of schools are using this machine—to make their desks new—to resurface 800 to 1600 square feet of floor a day—and for all types of maintenance work.

120 desks made new in a day! That is the average performance of this wonderful machine.

Weighs only 23 pounds—connects to any light socket—works everywhere. Many schools are buying it just to have this fine industrial tool for instruction of their manual

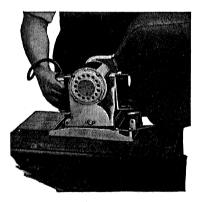

training classes.

There is still time to refinish, renew your desks this year. Get the full facts at once—and see how the Clarke can reduce your maintenance costs.

Clarke Sanding Machine Co.

Graphing the School Report

In presenting this School Report we have followed the lead of Big Business. More and more, each year, Business is dropping statistics and using the Graph Line to drive home their story.

This report has the advantage of graphically indicating the standing of the student far more forcibly than a mere tabulation of the numerical percentages would indicate, whether the change is an advance or a decline.

T SHALL always be a glorious feeling to pick up the old annual and thumb thru its pages, recalling those happy days at school.

And with every year, that dear old Book, shall be more treasured, and more read than any other book in the Case. It can not be replaced.

It is only proper that serious thought be given to the Cover encasing that treasure. That Cover must serve its expected purpose.

It must have crafstmanship; it must have quality; and it must have richness, together with durability.

An Ars Cover; the cover of all covers, is built with that thought in mind. In after years, it shall be the same as when first bound. For it MUST stand up.

It is a pleasure to say that the Ars Covers encase many an annual and it is our hope that your annual will also be bound with an Ars Cover.

You will be under no obligation by asking for samples or designs for your special need. It will be our pleasure to serve you.
